Notes

One of the main purposes of this question is to find out whether any groups have greater difficulties than others in finding jobs. For this reason it is descent we are interested in rather than the country in which a person was born. If persons are in the 'Black - Other Black groups' or 'Other' categories they will be asked to specify further at the following question. ETHNIC should not generally be used for analysis. ETHCEN or ETHNICA should be used instead.
